School ID number: 20RCCS

Student's name: Isabela Nerina Frangulea

Age: 15 year old

## **Moon,treasure chest of secrets**

Flying to Cosmos isn't easy

If you are always busy

But you have to face

That the flight is not a race.

Once you arrive

You'll have to subscribe

If the Moon is really white

or the Sun is bright ,

And if everything is to be all right

You will have to post it on your site

And place a time capsule Moon inside.

This capsule allows us to be alive

Even after on Earth , can we not survive

All the information can be recovered

If people went there ,

And it was discovered .
